FOR THE OPERATOR WHO HAS 24 HOURS

Start AI *in 24 hours.*

Five workflows. One day. From zero account to AI you actually use Monday morning.

TIME	WORKFLOWS	COST	LLM
24*h*	5	$27	*any*

BY BOUBACAR · EX-CORPORATE HR

LETTER FROM THE AUTHOR

This is the guide I wish I had *two years ago.*

Skip the AI course funnel. Skip the "best 50 AI tools" listicle. Skip the cohort that starts in three weeks. By tomorrow this time you will have five workflows running on whatever LLM you already pay for. That's the whole product. The structure below assumes you start tonight at 8pm and have 24 hours. Adjust to your real schedule. Only rule: don't spread it across a week.

THE 24-HOUR SCHEDULE

8:00 PM TODAY	***Setup (15m)***	Pick the LLM you already pay for. One tab. No tool-shopping.
8:15 PM	***Workflow 1***	Email triage. 3 buckets + draft replies.
9:30 PM	***Workflow 2***	Meeting prep. Agenda + open Qs per meeting.
10:30 PM	***Sleep***	Save 3-5 for morning. Burnout at midnight kills the Monday ship.
6:30 AM	***Workflow 3***	Document compression. 1-page brief.
7:30 AM	***Workflow 4***	Decision support. 3 reframes on 1 stuck call.
8:30 AM	***Workflow 5***	Personal ops. Written runbook for 1 errand.
9:00 AM	***Ship***	Run Workflow 1 on today's actual inbox. Live, not practice.

WORKFLOW 01 · EMAIL TRIAGE

Stop reading every email. *Triage in four minutes.*

1

OUTCOME: PASTE-READY INBOX SNAPSHOT

Snapshot your inbox

Open your email client. Copy the subject + sender for the last 30-50 unread messages into a scratch doc. That's the input.

2

OUTCOME: 3 BUCKETS + DRAFTS

Paste this prompt into any LLM

Paste into any LLM

```
You are my email triage assistant. Take the inbox list below and split it into 3
buckets:

  1. ACTION NEEDED (under 5 min reply, do today)
  2. READ LATER (informational, no action)
  3. ARCHIVE / DELETE (newsletters, junk, FYIs already handled)

For each ACTION NEEDED item, draft a 2-3 sentence reply I can edit and send.

Inbox:
[paste your 30-50 lines here]
```

3

OUTCOME: 5-12 EMAILS CLOSED IN 30 MINUTES

Send the action-needed batch

Copy each draft into the reply box. Edit one line for your voice. Send. Move to the next. Don't re-read the LLM output. Trust the draft.

The LLM is not your replacement. It is your first draft. The draft is eighty percent of the work.

MONDAY-MORNING WORKSHEET · FAQ · NEXT STEP

Fill this in before *9:00 AM Monday.*

Print the page or fill on a tablet. The act of writing locks the decision.

§ ***Which one workflow am I committing to use on Monday morning?***

Pick exactly one. Not five.

§ ***What is the specific calendar block?***

---

e.g., Mon 8:15-8:45 AM, email triage.

§ ***What would I have to believe for this to fail by Friday?***

Pre-mortem. Naming the failure mode is how you avoid it.

FAQ

Q. ***Which LLM should I use?***

A. The one you already pay for. Claude, ChatGPT, Gemini, Grok, Perplexity. Brand doesn't matter for 95% of what most people do.

Q. ***Will this work if I am not technical?***

A. Yes. If you can use Gmail, you can do this.

Q. ***Do you offer refunds?***

A. No. Digital download. Value is in doing the 24 hours, not returning the file.
